HOLIDAY HOMEWORK (2018-19)

CLASS – VIII

- **ENGLISH:** Create a comic book. The theme of the story should be of your choice. The following points should be kept in mind:
 - Cover Page.
 - Pictures Drawings.
 - The Story should have a moral.
- **MATH:** Equations to Solve Magic Squares (Sheet Attached).
- **SCIENCE:** 1) Which metals have been named after Marie Curie Enrico Fermi, Divitri Mendeleev and Albert Einstein.
2) The civilization was based on seven metals called the metals of antiquity. What are these metals? Write a short report on these.
- **HINDI:** 1) प्रत्येक ऋतुओं का विस्तारपूर्वक वर्णन करते हुए चित्र सहित परियोजना (Project) तैयार कीजिए।
2) किसी भी यात्रा का वर्णन अपने शब्दों में कीजिए।
- **URDU:** Sheet Attached.
- **SOCIAL SCIENCE:**
 - ❖ **HISTORY:** Collect pictures of English ships and weapons of colonial period.
 - ❖ **CIVICS:** Diary entry – Imagine that you have won a legal case against a company which refused to give you a job due to your caste. Write about your feelings of your Fundamental Rights being upheld by the court.
 - ❖ **GEOGRAPHY:** Collect photographs and make a collage to show how some of our natural resources have been damaged due to industrialization, increasing population, illegal trade.

HOLIDAY HOMEWORK (2018-19)

CLASS - VIII

Equations to Solve Magic Squares

You have already studied about Magic Squares and know that the sum of numbers in every row, column and diagonal is the same.

This is called the Magic Sum.

1. Form an equation for each sum and solve the magic square I.

The Magic Sum for the square is 30. Fill in all the numbers and check your result.

	$x + 2$	$x + 1$
	x	
9		

Magic square I

2. Form an equation for each sum and solve the magic square II.

Then check your result. The magic sum for the square is 80.

Remember, in a 4×4 magic square, the sum of the four centre numbers and the sum of the four corner numbers is also equal to the magic sum.

			$x + 4$
	x	$x - 2$	
$x - 4$		$x - 10$	
	$x + 6$		$x - 20$

Magic square II

Note: Making equations to solve the squares is a must.
